

DRUG POLICY RESEARCH 101: Student Training Program

ODPRN ONTARIO
DRUG POLICY
RESEARCH NETWORK

About the Program

This new one-year, collaborative ODPRN Student Training Program allows students to develop capacity in drug policy research in Ontario

Timelines

Apply by November 1, 2017
Program starts January 1, 2018

Components

Learning through online drug training modules

Skill-building through bi-monthly webinars

Networking and presenting opportunities

Objectives

Increase knowledge in drug policy research, pharmacoepidemiological methods, patient-oriented research and knowledge translation

Collaborate and network with academic researchers, clinicians, patients, policymakers and other trainees

Comprehension of real life policy decision-making processes
