

# Have You Accessed Naloxone?

We want to understand why you have accessed naloxone - including what makes it easier or more difficult to access- among individuals who do NOT have personal experience with opioids (i.e. family member, friends, bystander) in order to improve naloxone policies and programs.

## **PARTICIPANTS**

Ontario residents 18 years or older who do NOT have personal experience with opioids yet have accessed a naloxone kit.

## **INVOLVEMENT**

One hour telephone interview to understand people's perspectives and experiences with naloxone. Participants will be compensated for their time. Further details here:

## **ABOUT US**

The Ontario Drug Policy Research Network (ODPRN) is a team of researchers who work with a variety of groups within Ontario to research drug safety. One of our core areas of research is the safe use of opioids.
